PROJECTS

HealthTracker/BMI Calculator

- Completed a health tracker application using JAVA that allows a user to input and track weight, returns current BMI, and returns caloric intake depending on fitness goals.
- <https://github.com/paulrod3/Udemy-Java-Master-Class/blob/main/src/main/java/JavaProjects/HealthTracker.java>

Text Adventure Game

- Completed a Text adventure game using JAVA. The game presents the user with a choice, that then progresses the game.
- <https://github.com/paulrod3/Udemy-Java-Master-Class/blob/main/src/main/java/JavaProjects/TextAdventureGame.java>

PROFESSIONAL EXPERIENCE

Cybersecurity Workforce Alliance iQ4 | Remote San Antonio, TX Cyber Security Intern

January 2023 – March 2023

Participated in a 14-week cybersecurity pre-apprenticeship and represented the role of the behavioral analyst and public relations officer in a team that analyzed a cybersecurity threat that impacted Ubiquiti.

- Obtained 350 related workforce hours by working within a team to create a comprehensive insider threat mitigation plan using the NIST cybersecurity framework.
- While representing the role of Junior Behavioral Analyst demonstrated the ability to understand human behavior involved in threat scenarios and applied psychological attributes that suggested vulnerabilities to an organization's people, processes, and technologies.
- While representing the role of Public relations officer, coordinated all communications between the cyber team and the rest of the organization, as well as those going out to customers, stakeholders, and the public.

R&C Realty Group | San Antonio, TX Residential General Contractor

July 2022 – Present

Worked with a group of investors to manage construction and remodeling projects from initiation to completion

- Maximized cost savings by assessing subcontractor bids before completing contract agreements
- Managed talented teams of electricians, carpenters, plumbers, and other craftsmen on residential projects
- Determined project schedule, including sequencing all construction activities for optimal efficiency
- Supervised labor, materials, and equipment for residential projects with budgets in excess of 75k

The Home Team of America | San Antonio, TX Realtor

January 2016 – Present

Assisted buyers with finding ideal homes by assessing needs, requirements, and budgets. Arranged for title searches of properties being sold and gave buyers virtual and physical tours of properties. Acquired new clients by following up regularly regarding individual real estate desires and current listings.

- Generated sales through effective networking and marketing strategies to grow new business and increase productivity
- Reviewed property listings, interviewed potential clients, accompanied clients to properties, and effectively communicated condition of sales
- Followed up on the escrow process, coordinated contingency removal of property inspection and maintained timely closing of escrow

Murphy Exploration & Production | Houston, TX Well Site Supervisor

June 2013 – October 2015

Served as a member of a team that has consistently drilled wells under budget and time frame. Implemented and enforced the zero accident, incident, and illness HSE standards that helped reduce the total recordable incident rate to zero. Reduced rig move times by 35% and reduced incidents during rig moves to zero.

- Led and participated in accident and incident investigations to ensure actions were closed out within the deadline
- Collaborated with engineering staff in the development, implementation, and evaluation of drilling operation programs providing planning support, and operational clarity
- Managed the safe drilling of over 100 horizontal wells to depths of over 17,000 feet
- Determined the project schedule to organize the timely logistics of the operation effectively
- Performed calculations but not limited to kick tolerance, well control, cementing, torque drag, swab/surge, overpull/stretch, space-outs, etc.

Signa Engineering | Houston, TX Well Site Supervisor Training

October 2012 – June 2013

Attended a rigorous set of courses and training seminars related to drilling and completions operations. Managed day-to-day operations of drilling in a safe and efficient manner.

- Worked in a team environment to ensure the safety of all personnel on location and compliance with all applicable environmental regulations
- Managed day-to-day activities of rig contractor personnel and third-party contractors while adhering to established cost and budget controls for each project
- Oversaw the safe transportation of personnel and necessary equipment to and from each work site with zero incidents or losses

United States Marine Corps | Kaneohe Bay, HI

June 2004 – June 2008

Operations Manager

Planned, executed, and managed over 200 force protection and security missions in Anbar Province, Iraq and Kandahar Province, Afghanistan.

- Led and directed multiple 13-member teams in mission planning, complex operations, and the successful achievement of time-sensitive company goals
- Aided senior leaders in the planning, resourcing, and execution of more than 200 vehicle and on-foot operations in high-risk, high-stress environments
